QPI NATURE WORLD

Life Size, Realistic Fibreglass Animal & Nature Sculptures

QPI NatureWorld has a library of over 2000 museum quality film props and moulds of sculpted, life size fibreglass reproductions of mammals, birds, reptiles, sharks, amphibians, and hundreds of human character pieces and life size advertising props, which it has produced over the last 35 years.

We also have the 500 piece range of lightweight, polyurethane artificial rocks, caves, streams, designer rocks, waterfalls and pond units.

Browse through our display to see how this remarkable collection of diverse art has been used to produce feature highlights of many of Australia's most spectacular attractions.

Finished pieces of all product catalogue items are available off the shelf.

The company has extensive production capabilities both domestically and offshore which provide a highly competitive fabrication and construction advantage.
